

Appreciation Certificate

We would like to certify that we are using Eetamax LED Highbays @ 200+ Nos. in our plants located at Gujarat and Telangana.

After the detail study and survey of our shop floor, Eetamax suggested us their suitable Highbay fitting. We compared Eetamax against other renowned brand and found that Eetamax Highbay light quality is far superior over other brand. The quality and feel of the Eetamax lights, as well as the spreading and area coverage was also excellent. Recently at our new project in Telangana we have installed 150W High Bay Lights in 100 Nos.

In shop floor we are using Eetamax High Bay Lights which are working for 24 hours per day and the lights are still working comfortably after 1 year of operation.

The technical support from Eetamax team & the product performance of Eetamax Energy Efficient Lighting systems is as per our fullest satisfaction till date.

We wish all the best to Eetamax team.

For Chiripal Polyfilms Ltd.
