

Appreciation Certificate

We are pleased to certify that we are using 'Eetamax' lights since last 6 to 7 years satisfactorily. These are installed at our Nashik (Maharashtra) facilities. These lights are being used for various applications like Shop Floor Lights, Street Lights, Flood Lights, Office Lights, Inspection Lights / Channel Lights, etc.

Now we are using 'Eetamax' LED lights from last 2-3 years. Recently we have completed Shock division lighting project for targeted lux level. The lighting layout given by Eetamax was most optimal. It gave the lowest connected electrical load and delivered the best project cost.

After installation Eetamax Team has proved the lux level is achieved as per their given lighting design. We have checked Lux Level periodically & found that it is maintained. We have not come across any maintenance or Lux level related issues in Eetamax fittings.

We appreciate Eetamax product performance and are also pleased to inform that Eetamax Team takes responsibility of their products supplied.

We are very satisfied with the Eetamax Lighting Solutions.
