

## Appreciation Certificate

We are pleased to certify that we are using various types of 'Eetamax' brand Lighting systems like Cold room lights, Office light, Flood Light & Street Lights since last 7 years.

While executing our new project, we have taken trials & proposals from various leading brands, but only Eetamax has suggested customize Highbay with Separate driver box for cold room application suitable in  $-40^{\circ}$  C temperature. After the trial of various fittings, we found that the results of Eetamax fittings were very excellent in terms of Lux Level, Glare free light. These fixtures are easy to install and to maintain also.

After the detailed technical study and commercial discussion, we finalized the Eetamax Proposal. All our doubts regarding lighting have been clarified properly by 'Eetamax' Team.

We have now installed @ 500 + Nos of 'Eetamax' LED products like Highbays, Flood Lights, Street Lights, Tube Light set in our new cold storage project at Vinchur, Nashik.

Since last more than a year the fittings are working very comfortably.

We have not come across any maintenance & Lux level related issues in 'Eetamax' fittings.

We are pleased to appreciate the light quality & performance of 'Eetamax' products.

The above testimonial has been issued at the request of Surya Group.
